

MUSICIANS

RECORDING COURSE

LEARN TIPS & TRICKS

SAVE TIME & MONEY

If you are interested in music, recording & production, & have some basic knowledge, **Sound and Recording for Musicians** is designed to take you to the next level. The course is for people who want to learn more about sound engineering & recording techniques, allowing them to improve as music producers. It will be conducted in our professional recording studio using state-of-the-art equipment. The principle lecturer is Daire Winston, who has over 30 years experience in studio recording, live recording & studio design.
